Guest Speaker

Prof. K.W. Axhausen

WEDNESDAY, 19 MARCH 2025

15:30 – 17:00 pm

ILWA-SR 29

Ilse-Wallentin-Haus, Universität für Bodenkultur

Dr. K.W. Axhausen has been Professor of Transport Planning at the Eidgenössische Technische Hochschule (ETH) Zürich (Swiss Federal Institute of Technology) from 1999 until 2024. He held his post in the Institute for Transport Planning and Systems of the Department of Civil, Environmental and Geomatic Engineering. Before his appointment at ETH he worked at the Leopold-Franzens Universität, Innsbruck, Imperial College London and the University of Oxford. He holds a PhD in Civil Engineering from the Universität Karlsruhe (now KIT) and an MSc from the University of Wisconsin – Madison. He received an honorary doctorate from the Danish Technical University in 2020 and the IATBR lifetime achievement award in 2024. He was the chair of the International Association of Travel Behaviour Research (IATBR) and is editor-in-chief of Transportation and earlier of DISp, both ISI indexed journals.

Thinking about the future: E-Bike-City as a vision

The talk will sketch the dilemma of today's planning and contrast it with the certainties of the visions which have guided us so far. Discussing the process of innovation acceptance it will propose one possible vision for the urban future: the ebikecity. It will conclude with first results of a test of the design idea (network and simulation of Zürich).
